Agenda Item: OHSP Research project update
Discussion: Valerian discussed outcomes of ped/bike crash data research analysis project. Went through final report methodology, analysis and outcomes. Lots of data and graphs were compiled to highlight consistent themes through the data. Bikes and ped fatalities and serious injuries had some similar risk behaviors associated with them and also different risk behaviors which were highlighted. This presentation took the majority of the meeting and was very informative. Countermeasures were discussed and the group show interest/concern is some of the CMFs displayed in the final chart for implementation.
Norm is interested in the PBCAT database
Action: Distribute final report as appropriate
